# Copy Trading Software Installation Guide – Copy Trading (Manual Setup)

### Introduction

This guide provides step-by-step instructions for manual installation of the Copy Trading Copy

**Trading Software**. This method assumes you downloaded the software as a zipped file (CopyTrading.zip).

## **System Requirements**

Refer to the separate document titled "Copy Trading Software Installation Guide" for minimum system requirements.

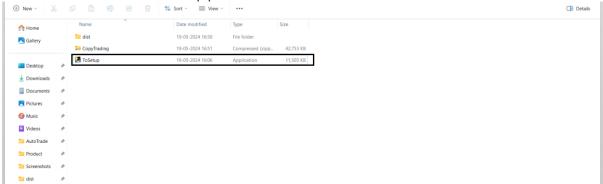

#### **Software Installation**

 Unzip the Downloaded File: Locate the downloaded file (CopyTrading.zip) and unzip it using your preferred archive utility.

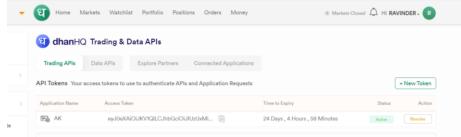

2. Run the Setup File: Double-click the ToSetup.exe file located within the unzipped folder.

This will initiate the software setup process.

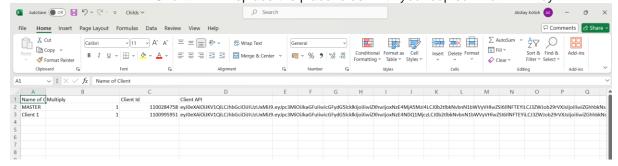

- 3. Configure Child Accounts (Manual):
  - Open the Childs.csv file using Microsoft Excel or a compatible spreadsheet program.
  - Visit the Dhan web portal at <a href="https://login.dhan.co/">https://login.dhan.co/</a> and log in to your account.

- Navigate to your profile settings.
- o Locate and copy your Client ID and Dhan API.

- o In the **Childs.csv** file, replace the following placeholders with your information:
  - Multiply: Enter the desired quantity multiplier for client orders (e.g., enter 2 to place double the quantity in child accounts).
  - Client Id: Replace the placeholder with your copied Dhan Client ID.
  - Client API: Replace the placeholder with your copied Dhan API key.

 Adding Child Accounts: The first row in Childs.csv represents your master trading account. You can add additional rows for unlimited child accounts where trades will be copied. Ensure each row has the Client ID, API, and desired quantity multiplier.

## **Software Operation**

Trading: You only need to perform trades on your master account. The software will
automatically replicate those trades in all linked child accounts according to the configurations
in Childs.csv.

## **Troubleshooting**

- Restart: If you encounter any issues, restart your computer. The software should automatically launch on startup.
- Manual Restart: If the software doesn't automatically restart, double-click ToSetup.exe
  followed by main.exe to manually relaunch the copy trading software.

## **Disclaimer**

This guide is for informational purposes only and does not constitute financial advice. Copy trading involves inherent risks, and past performance is not necessarily indicative of future results. It is important to thoroughly understand the risks involved before using any copy trading software.
